TASK SCENARIO

‘Smart Art’ has partially developed a database that will eventually merge with the database you created in Part A.

A piece of art must have a name.

A piece of art must have a selling price of at least £100 and no more than £2000.

A piece of art must belong to an artist.

A piece of art is either available or sold.

Sales are analysed.

Artists are given a rating of 1, 2 or 3.

The highest rating is 1.

The database will record information about the pieces of art, sales and ratings.
